SUMMARY

M.S. Artificial Intelligence candidate at Illinois Institute of Technology with hands-on experience designing and fine-tuning large language models, agentic workflows, and RAG pipelines across research and industry internships. Proficient in Python, NLP techniques, Transformers, and Microsoft Copilot Studio, delivering a 47% surge in app engagement and saving over 2 hours per day through automation, with multiple hackathon awards.

EXPERIENCE

Illinois Institute of Technology | *Research Assistant*

Jan 2026 - Present

- Architected multi-agent automations leveraging workflow orchestration in Microsoft Copilot Studio, integrating Outlook and scheduling workflows, targeting a 40% reduction in manual coordination time across enterprise research teams.
- Optimized text-to-SQL interfaces with schema-aware mapping and self-correction loops under Dr. Gerald Balekaki, incorporating model evaluation metrics to improve executable query accuracy by 30% on complex natural-language inputs.

I Am I Authentications, Inc. | *AI R&D Intern*

Jan 2026 - Present

- Prototyped deep learning-based anomaly detection models in TensorFlow for identity verification using behavioral risk scoring; designed to reduce false acceptance rates by 25% in pilot authentication flows.

Sportsmechanics Pvt. Ltd. | *Machine Learning Intern*

Dec 2023 - Jul 2024

- Architected an AI commentary engine for IPL/TNPL ingesting live match data streams to generate context-aware narrative insights, serving 100K+ concurrent broadcast users.
- Shipped event-driven personalized match alerts for the TNPL app, directly driving a 47% measurable surge in session viewership across 3 tournament rounds.
- Built a YOLO-based ball-tracking CV model from scratch, achieving sub-100ms inference latency for real-time trajectory analytics used by 4 coaching teams.

PROJECTS

Text-to-SQL AI Agent

2025

- Implemented a Python-based 3-layer reasoning architecture (Discovery → Planning → Execution) using Transformers and custom prompt workflows, with a self-correction loop that reduced invalid SQL queries by 60% and supported real-time model evaluation for improved reliability.

Wayfair Market Intelligence Agent

Dec 2025 - Feb 2026

- Built and deployed Dockerized autonomous agents in Python that monitor competitor pricing across 500+ SKUs, leverage LLM-based prompt pipelines for trend summarization, and integrate REST APIs for data ingestion-saving 10+ hrs/week in manual research for a \$14B retail operation.

AI News & Sentiment RAG Agent

2025

- Built an end-to-end RAG pipeline ingesting 200+ daily articles, performing vector search over a pgvector store, and scoring sentiment with Gemini; automated executive briefs via Gmail, saving 2+ hrs/day across a 5-person analyst team.

Career Path AI – Hackathon Winner

2025

- Built a Mixtral-8x7B career mentor that parsed resumes for ATS scoring, queried live job data via SerpAPI to surface skill gaps, and generated custom project roadmaps; cut skill-gap analysis from 3 hrs to <2 min - awarded Hackathon Winner among 50+ teams.

chi360 – AI-Integrated Urban Intelligence Platform

2025

- Led a 6-person team to ship a 6-pillar city intelligence platform (transit, housing, air quality, markets) in 48 hours; embedded Claude AI as a conversational city guide for natural-language queries across all modules, integrated 4 live public APIs, and delivered a Supabase-authenticated React app demoed to 200+ judges.

SKILLS

- Languages:** Python, SQL, TypeScript, JavaScript, C++, MATLAB
- AI / ML:** LLMs (Gemini, GPT-4, Mixtral, Groq), RAG, Agentic Workflows, NLP, Transformers, Scikit-learn, YOLO, Text-to-SQL, Machine Learning, Deep Learning, Reinforcement Learning, Prompt Engineering, Workflow Orchestration, Model Fine-tuning, Model Evaluation- , TensorFlow
- Backend & APIs:** FastAPI, Node.js, REST APIs, WebSocket, n8n, Zapier, Microsoft Copilot Studio
- Data & Infra:** PostgreSQL, pgvector, Pinecone, Supabase, Docker, Git, Tableau, Power BI, React, Model Deployment

EDUCATION

Illinois Institute of Technology | *M.S., Artificial Intelligence* (GPA: 3.6 / 4.0)

Chicago, IL Aug 2025 - May 2027

Shiv Nadar University | *B.Tech, Computer Science & Engineering (IoT)* (GPA: 3.7 / 4.0)

Chennai, India Sep 2021 - May 2025
